Boil Water Advisory Rescinded for Belle Plaine in Sumner Co.

TOPEKA, Kan. – The Kansas Department of Health and Environment (KDHE) has rescinded a boil water advisory for the City of Belle Plaine located in Sumner County. The advisory was issued because of a loss of pressure in the system.

Public water suppliers in Kansas take all measures necessary to notify customers quickly after a system failure or shutdown. Regardless of whether it's the supplier or KDHE that announces a boil water advisory, KDHE will issue the rescind order following testing at a certified laboratory.

Laboratory testing samples collected from the City of Belle Plaine indicate no evidence of contamination and all other conditions that placed the system at risk of contamination are deemed by KDHE officials to be resolved.

###

KDHE's mission is to protect and improve the health and environment of all Kansans.
